April 27, 2026

Dear Valued Customers,

At Daniel Morgan Water District, our mission has always been to provide safe, reliable, and affordable water service to our community. As a non-profit organization, we work hard to keep costs as low as possible while maintaining the quality and infrastructure you depend on every day. Due to rising operational expenses—including the increasing cost of purchased water, maintenance, and regulatory compliance—a rate adjustment has become necessary. This increase will allow us to continue delivering dependable service and to invest in system improvements that benefit all customers. **The new rates will take effect on July 1, 2026 and will be reflected in your billing statement thereafter.** We remain committed to transparency and responsible stewardship of our resources.

We sincerely appreciate your understanding and continued support. If you have any questions, please do not hesitate to contact our office.

Sincerely,
Daniel Morgan Water District
